

RE

FILL

REFILLABLE JAR

It's a brilliant way to save the environment :
REMOVE, BUY, REFILL, and REPEAT.

HEAT INDUCTION SEALING safely
protects the formula before opening.

CSCY50(R)-U
Volume : 50ml

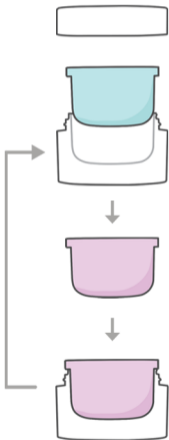

* PP COVER for the refill cup not only
enables the ultrasonic bonding of
sealing, but also functions as a
safe-guard.

EASILY REMOVABLE/REPLACEABLE,
all it takes is a little bit of twist.

HOW TO REFILL

REMOVE

Time to get a new one?
Unscrew the refill cup to take it out.

BUY

Throw away the used cup and buy a new one.
The refills are made of 100% recyclable material.

REFILL

Screw the new refill cup into a jar.
Well done, now enjoy!
